Re: Change of Status
MAD980732812

Dear Mr. Burke:

In response to your letter of January 24, 1985, requesting a change of status from generator to Small Quantity Generator, we are writing to confirm that this change has been processed.

From the information submitted it appears that you do not now generate over a total of 1,000 kilograms of hazardous waste, or 1 kilogram of acutely hazardous waste, in any one month at this location.

For complete information about the requirements for small quantity generators please refer to Massachusetts hazardous waste regulations (310 CMR 30.000) as well as the special requirements for wastewater treatment units listed in 30.605.

If this interpretation of your current status is incorrect, or at any time in the future you should change your location or activity to qualify for another status under the regulations, you must notify this office in writing.

Please contact the Compliance Branch of the Division of Solid and Hazardous Waste at (617) 292-5851 if you have any questions.

Very truly yours,
